

PROARGI-9+

CITRUS BERRY

ProArgi-9+ is a patented product with the power of L-arginine, L-citrulline, and more.

30 single-serve packets

Synergy's top-selling product is the cornerstone of any nutritional regimen. ProArgi-9+ was formulated in collaboration with leading L-arginine researchers and cardiovascular specialists. These experts have conducted pioneering research on the proper application of L-arginine in promoting cardiovascular health. Each serving of ProArgi-9+ contains 5,000 mg of pure, free form pharmaceutical grade L-arginine, which has been validated as a therapeutic agent by thousands of clinical studies.

ProArgi-9+ has been proven to rapidly and significantly increase the nitric oxide levels in the body. Nitric oxide supports healthy circulatory and cardiovascular function.

Studies show that L-arginine aids in maintaining healthy blood pressure levels, helps improve immune function, and stimulates the release of human growth hormone (HGH).* It may also boost energy levels, helps build muscle, and reduce adipose tissue body fat.*

ProArgi-9+ is a unique product with far-reaching benefits that will help you unlock your potential and achieve Elite Health.

ABOUT SYNERGY ELITE HEALTH PRODUCTS

Elite Health is the pinnacle of wellness, where age does not dictate ability. Scientifically, Elite Health is optimal metabolic function, the state in which all body systems are performing efficiently, which gives you the energy to see more, do more, and be more, no matter what stage of life you're in.

Recent scientific discoveries have uncovered a fascinating inner-ecosystem within each of us called the microbiome. This complex network of bacteria, fungi, and microflora resides primarily in the gut and impacts the health of virtually every system in the human body.

Synergy WorldWide has carefully engineered proprietary solutions designed to Purify, Fortify, and Protect the body, all beginning with the microbiome. Take control of your microbiome, unlock your potential, and begin your journey to Elite Health.
